

Join the ASABE ABET Program Evaluator Team

Make an Impact

ASABE members from academia, industry, and government bring valuable expertise and contributions to the peer-review accreditation process for a college or university. The Society's membership in ABET supports accreditation of college and university programs in applied and natural sciences, computing, engineering, and engineering technology at associate's, bachelor's, and master's degree levels worldwide. **Join our accreditation team today!**

Why Become a PEV?

- **Enhance program quality:** PEVs play a crucial role in ensuring the programs offered to students are of high quality and relevance. This assurance helps employers trust that graduates are well prepared to enter the global workforce.
- **Strengthen expertise:** Through comprehensive training, PEVs enhance their own professional skills. Continuous support and feedback are provided throughout the process.
- **Expand networks:** Serving as a PEV allows you to connect with professionals from various sectors, disciplines, industries, and locations, often resulting in lasting professional relationships.
- **Gain insight with the accreditation process:** A university program with a PEV on faculty or advisory board can better prepare for accreditation visits.
